

SHIVESH TIWARI

ML Engineer

Bengaluru | shiveshtiwari0@gmail.com | www.shitworks.co

SUMMARY:

Solution-oriented Software Developer and problem solver with over 2 years of experience building software that people love. Highly skilled in communication, collaboration, and technical documentation. Committed to Open Source Softwares.

WORK EXPERIENCE:

Livana Technologies

Full-Stack Engineer Intern | December, 2023 - Present

- Worked as a remote developer on a platform using which shopkeepers can create and manage their e-commerce portals.
- Collaborated with other developers to create the backend for the seller and customer facing dashboards and built a robust authentication architecture.
- Developed the initial landing page and frontend for the website.

PROJECTS:

Sentiment Analysis Model

Training | Pytorch | Bert

- Trained a complete Sentiment Analysis model on custom dataset [Notebook](#)
- Implemented Bert Neural Networks for Sentiment Analysis [Notebook](#)

Furtech: AI based Pet-Care System

Pytorch | FastAPI | React

- Trained ML models for pet's diet plan, health prediction and finetuned multiple models.
- Highly scalable codebase and built in 24 hour hackathon timeframe.

React Elementique

NPM Library | Open Source | Testing

- Built a highly customizable component library for react which provides
- Made with Typescript

Readmekraft

Scalable | Made with Next JS | Ranked at Product Hunt

- Create SeO optimized github Readme's
- Ranked 17th Product of the Day at [ProductHunt](#), Open Source with 20+ stars on [Github](#)

EDUCATION:

2023 - Present | M S Ramaiah Institute of Technology

Bachelor of Engineering

SKILLS:

- Backend development and Frontend web development
- **Programming Languages:** TypeScript, C++, Python, Rust, Go
- **Web Frameworks:** React, Next, Django, Flask, Vue, FastAPI, and more
- **Databases:** MongoDB, MySQL
- **Other Tools:** Docker, Pytorch, Tenserflow, AWS
